

## **Business Coaching Programmes Available from The Hayward Hub**

### **Grow Your Business with Confidence – Start with a Free Business Review**

Running a business can feel lonely, pressured and overwhelming. If you want clearer direction, stronger profits and a business that works *for* you – not just because of you – let's start with a free, no-obligation Business Review.

In up to two focused hours, I'll:

- Understand your goals
- Identify obstacles holding you back
- Give you practical, actionable steps you can implement immediately

From there, you can choose the level of support that's right for you:

#### **Compass – Business Mentoring**

For owners and directors who want a trusted sounding board. One-to-one mentoring to help you think clearly, make confident decisions and stay focused on what really matters.

#### **Accelerate – 3-Month Kick-Start**

For businesses ready to move fast. A structured programme to organise your business, create momentum and start generating sustainable income quickly.

#### **Velocity – 12-Month Directed Growth**

For micro-businesses wanting profit, systems and focus. We build your action plan, hold you accountable and keep you moving forward.

#### **Momentum – Managed Growth for SMEs**

For businesses that need long-term support. A step-by-step programme to improve profitability, confidence and control over your business.

All programmes are practical, affordable and built on real-world experience. And we don't just advise – we work with you to make things happen.

Susan Hayward delivers the Compass, Accelerate, Velocity and Momentum programmes as an Associate Specialist Consultant with Executive Training and Consultancy, bringing them to clients through The Hayward Hub.
